

Posted is the pre-course reading assignment for the mandatory NL22 training scheduled.

Expectation is that both documents are reviewed by all attendees prior to the training session. Please note there is no need to print the documents by anyone as all training that will take place is on-line. **It is very important the material is reviewed ahead of time**

Also posted a training roster that will be used to document to track those that have completed the training which is mandatory effective February 1st, 2016.

Please remember to bring your Navy League ID as it contains your National registration number which will be used to track completed training.

Should you have any questions please let me know.

Regards,

Trainer@vidcadets.ca
